

What else would you like?

Do you want full protection against rain and wind? Every PATiO can be fitted with a special SHY-ZIP screen, either with window inserts or fully transparent. Do you want perfect drainage? You can have the water drain from the front or along the side according to your wish, possibly in combination with a gutter. Are you looking for comfort and convenience? You can choose from several models of remote controls with exclusive design. And with the SOMFY RTS safety box motor, you can keep the cutting and hacking to an absolute minimum. What else could you wish for?

somfy.

HAROL[®] patio

Setting new standards for **robust, simple and elegant awnings.**

Do you have a patio, swimming pool or garden that you would like to be able to enjoy regardless of the weather? If so, a PATiO awning is the ideal solution. Specifically designed to be easy to install and harmonise with every architectural environment, PATiO awnings provide shade and protection regardless of the weather. In addition, they are available in dozens of colours and patterns to give every outdoor space a special touch of elegance and style. If you are looking for protection for a relatively large area, Harol PATiO is the answer.

Three **solutions** for triple **pleasure.**

PATiO-TECNIC. An ideal folding-roof system.

Innovative and easy to close with a flip of the wrist, and featuring specially developed waterproof fabrics for perfect protection against sun, rain and wind. PATiO-TECNIC is the ideal solution for anyone who is looking for a flexible awning with low maintenance needs.

PATiO-ALU. Clean, modern lines.

A pergola structure in stainless steel and aluminium with a built-in folding roof. For everyone who adores clean, modern lines, PATiO-ALU is the perfect way to enjoy splendid days on the patio, balcony or court-yard.

PATiO-WOOD. Naturally warm.

A wooden frame, but still ultra-strong: PATiO-WOOD combines modern technology with the warm allure of wood. Constructed from laminated Norwegian pine as standard, without making any concessions with regard to protection against sun, rain and wind.

Choose your size and colour.

Do you have an especially large outdoor area? That's no problem: we have PATiO awnings that can cover an impressive 91 m² with a single fabric. And if you want a special colour, that's also no problem. You can choose from a range of colours for the frame as well as the fabric. In short, there's no shortage of options for choosing a PATiO awning that perfectly matches your taste.

Fully **waterproof fabrics.**

PRECONTRAIPT PVC 602.

Opaque fabric: available in the colours White and Ivory.

PRECONTRAIPT PVC 302.

Translucent fabric: available in a selection of 20 colours.

SOLTIS 86/92.

It is also possible to use SOLTIS fabrics. These fabrics can only be used for solar shading.

Do you operate a business? If so, you can also have the fabric printed or lettered.
